

Return-Exhaust Housing Without Cover Plate

Advantage:

- High reliability
- Strong, durable welded structure
- Quick filter change and easy inspection
- Integrated dP port for monitoring

Application: Used in clean rooms or HVAC systems

Filter box type: Wall mount for pre-filter G4/F7, with thickness of 22/48/96 mm

Standard structure: 1.0–1.2 mm thick (other sizes available on request)

Installation, Duct connection:

- Wall mounting through 4.5 mm pre-punched edge holes using rivets or as requested
- Do not connect the air duct

G4/F7 Filter Housing
